

TRUTH-IN-SAVINGS DISCLOSURE

The following disclosures apply to all credit union accounts unless stated otherwise.

1. Interest Rate Information. The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For all accounts, the Dividend Rate and Annual Percentage Yield may change quarterly as determined by the Credit Union's Board of Directors.

2. Source of Dividends. Dividends are paid from current income and available earnings after all required transfers to reserves at the end of the dividend period.

3. Dividend Compounding and Crediting. The compounding and crediting of dividends and dividend period applicable to each account are set forth in the Rate Schedule. The Dividend period is the period of time at the end of which an account earns dividend credit. The Dividend Rates and Annual Percentage Yields are the rates and yields as of the last dividend declaration date which is set forth in the Rate Schedule.

4. Accrual of Dividends. For all accounts, dividends will begin to accrue on noncash deposits (e.g. checks) on the business day you make the deposit to your account. For all accounts, if you close your account before accrued dividends are credited, accrued dividends will not be paid.

5. Balance Information. The minimum balance requirements applicable to each account are set forth in the Rate Schedule. For SAFE Share and Share Draft accounts, there is a minimum average daily balance required to obtain the Annual Percentage Yield for the dividend period. If the minimum average daily balance is not met, you will not earn the stated Annual Percentage Yield. For all accounts using an Average Daily Balance method, dividends are calculated by applying a periodic rate to the average daily balance in the account for the period. Adding the full amount of principal in the account for each day of the period and dividing that figure by the number of days in the period determine the Average daily balance.
